

B95 VPW Valve Control / Prepaid Ultrasonic Water Meter

The B95 VPW combines the characteristics of industrial products and artworks, and is practical, attractive, precise, durable and has proven to be a reliable, fully mature breakthrough product in precision measurement and valve control. The meter will enable you collect water bill prior to the water being consumed. The Meter is embedded with a ball valve that opens remotely upon prepayment and will shut off automatically at the time the water balance runs out.

The inbuilt prepayment solution will offer a good solution for managing water payment cashflow. The tenant/homeowner will purchase the water via the mobile App using Mpesa. In addition, the special compact design does completely assure the quality of water-proof protection. This proof is guaranteed even if it is installed under water in a long time. Moreover, the core engineering concept of B95 VPW aims at cutting down the budget on overall operating costs from remote meter readings.

Specifications

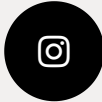

Model	B95 VPW - 15	B95 VPW - 20
Pipe Diameter	DN15	DN20
Minimum Flow Rate, qi (m³/h) @R250	0.01	0.016
Permanent Flow Rate, qp (m³/h)	2.5	4.0

Model	B95 VPW - 15	B95 VPW - 20
Connection	G3/4'	G1'
Length (mm)	165	195
Flow Meter Connector	R1/2'	R3/4'
