

Prepayment Metering Solution

Prepayment Meter Solution offer our utility client a good solution on finance advantage. Meter embedded with a ball valve (residential) or priority valve (bulk) enable water authority department collect water bill prior of the water is consumed. Water user have to purchase the water coupon with an IC card and insert it into the meter, valve shut off automatically at the time the water balance run out of. This solution also suitable for water multi-tariff situation.

Scenario: Apartment, areas where residential don’t pay.
