# Wireless Remote Reading Solution

**Wireless Remote Reading Solution** offers our customer reliable remote meter reading solutions with accurate measuring. Utility no longer need to send engineers on site to read the meter manually. With wireless technology, meter data is upstream to server automatically on each billing date. On this solution, utility save significant expenditure on installation cost, meter reading labor cost, and avoiding the mistake meter reading. This solution is widely used in worldwide on various types of meters.

**Solution scenario:** Decentralized houses, apartment buildings, schools.
